## Rubberized Landing Net

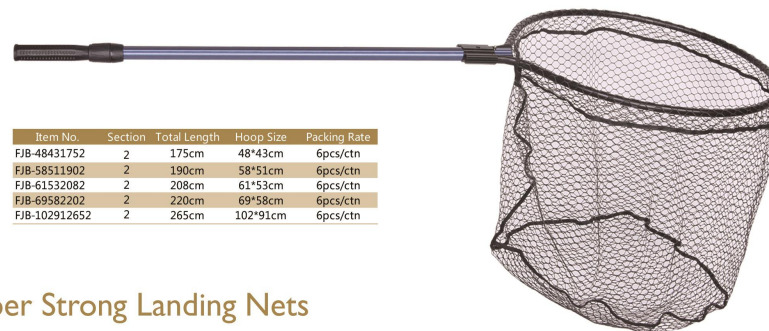

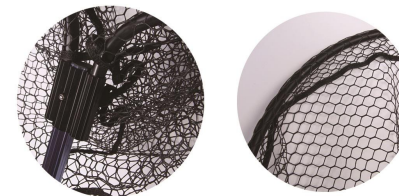

The new Tournament Series nets are exceptionally heavy duty. Besides the many features in our standard Tournament Series, the nets feature a rubber coated knotless flat bottom net. Being knotless, this net allows the fish to lie calmly in the bottom of the net and helps to not harm the fish's eyes, scales, or fins. The extra coating helps to keep the hooks from getting tangled. This net is designed with the catch and release angler in mind.

Item No.	Section	Total Length	Hoop Size	Packing Rate

## Tournament Series Muskie Nets

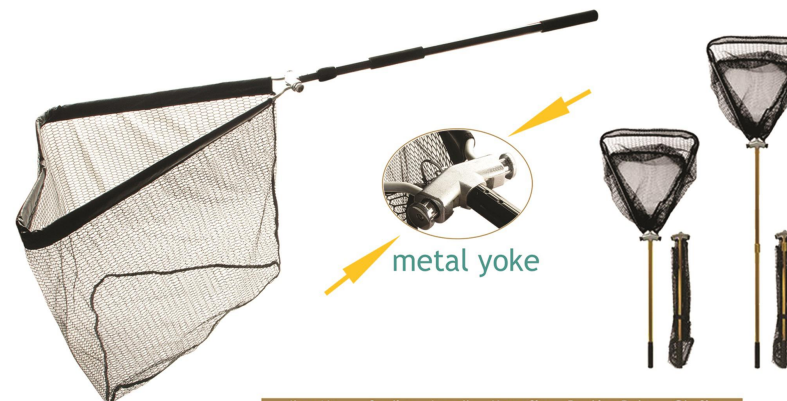

Spend more time fishing and less time removing tangled hooks and fish. They also make the perfect catch-and-release net! The fish will calmly lay across the bottom while you remove the hook. The net features a knotless, tangle-free rubber coated nylon flat bottom net. It has 20mm holes that create very little resistance in the water. Heavy-duty octagon handles automatically line up for quick extension and slide up into hoop for easy storage. All hoops are made of heavy 16mm aluminum tubes with reinforcements at all critical stress points. All handles and hoops are anodized black & blue or other colors your prefer.

## Super Strong Landing Nets

A compact folding landing net for use on boats, shoreline or docks. Features a wide net facing which opens and locks with a flip of the wrist. One-hand operation to deploy and auto-lock in seconds. Folds for safe and convenient storage. The handle is lightweight but extra strong anodized aluminum with a rubber grip. Two handle styles available, fixed-length and an extension model that easily adjusts and locks to desired length. Rubberized netting helps avoid hook tangles, easily sheds water and reduces storage odors.

### Rubber Coating Trout Net--S#, M#, L#

Our innovative new design offers the river or bank angler three nets for choice. The R-shape aluminium frame is ultra lightweight, yet offers amazing strength and rigidity. Attached to this is PVC coating knotless net, which has a flat bottom panel for the fish to lie in – ideal for catch & release. Smaller S & M # net provides an ideal river 'scoop' net, it telescopes out to 66cm (76cm) for additional reach. Bigger L# net provides an ideal river bank or Stillwater net, fully extended length: 114cm.
